What is a room parent?

One of the best ways to get involved in Cabot school and to get to know your child's teacher and classmates is to become a **room parent**. Every class needs 3-4 room parents.

Room parents help the teacher communicate classroom events to other parents through email. They distribute teacher requests for classroom supplies and help organize the end of year class picnic and the family breakfast depending on the grade.

Some teachers will give room parents an opportunity to participate in the classroom for special games or events once or twice a year, but there is no expectation that a room parent will be available to do so.

Each class needs a lead room parent to act as the primary point of contact liaison with the teacher. In addition to regular room parent duties, the lead room parent passes on requests to other room parents from the PTO and the teacher.

Room parent responsibilities can be done primarily from home through email.
